It is helpful to mute the buzzer alarm

Easy Installation

It is a DIY product. Does not require any experts. Anybody can install it.

Technical Details:

Input Power Supply : Single Phase - AC 230V / Three Phase AC 440V

Internal Voltage : DC 12V

Power Consumption : 5 Watts

Type of liquid : Most liquid

Depth of tank : Upto 6 meters

Signalling distance : Upto 300 meters

LED Indications : Power ON, Tank 4 level LEDs

Body Material : Plastic enclosure

Weight : 300g

AUTOMATION
